LITTLE GREEN HEAT

main inspiration

In the main room: Taking inspiration from the home of Carl & Karin Larsson, painted wooden shiplap paneling with a strong green upper/ ceiling section and warm neutral tones on the walls below punctuated with hot red trim and shelving. Hand painted folk detail below the red rail, statement painted furniture with handmade details, an eclectic mix of artwork and textiles. Replacing the wardrobe with a curtain covered alcove rail. Bringing in a mix of vintage furniture (table, chairs, coffee table) and replacing the sofa. Painted crossed oars mounted above the bed.

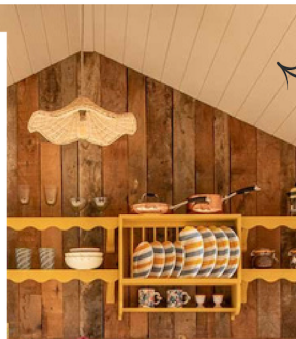

before

The main room is currently a little disjointed in terms of aesthetic. Changing and adding artwork, painting furniture and details and adding handmade textile items/ rugs will completely transform the space.
